Please reject the NBA's petition 04-160, because XM Radio and been a great service to me and my family. the weather & traffic is a great help because we are always on the road and its nice to know whats happening in the area your in. XM Radio is available everywhere unlike local radio. We pay for the services just like advertisers pay for local radio. Again it can save alot of heartache if for some instance you were not able to get any local radio and the was bad weather ahead or a huge traffic accident. Thanks for your attention in this matter.
